**CONDOLENCE**

It is with a heavy heart and deep sense of loss, that I express my heartfelt condolences upon the transition of an illustrious Nigerian and a foremost industrialist, Olorogun Michael Ibru.

He was called to greater glory at a time the country still needed his wise counsel and good direction, on several issues that border on the growth and development of our country.

During his highly eventful lifetime, he registered his impact in several fronts to move his home state Delta, and the country to the next level of development.

He will be dearly missed but we take solace in his indelible contributions to the socio-political and economic growth of Nigeria. It is my fervent prayer that God console you and other loved ones he left behind.

May his soul rest in perfect peace. Amen.
